

If I am selected as a Chateaubriand Fellow, are there any restrictions on when I can go to France?

Wednesday November 9, 2016, by [Administrateur Chateaubriand](#)

Yes, if you are selected as a Chateaubriand Fellow, your stay in France must start between September 1 and April 30 of the academic year for which your fellowship was awarded. Written approval from the Office for Science & Technology is required if changes in your research plans require that you leave prior to or after these dates.
