

About the Fellowship

Thursday August 25, 2016, by [Administrateur Chateaubriand](#)

The Chateaubriand Fellowship is a grant offered by the Embassy of France in the United States. **It supports outstanding Ph.D. students from American universities who wish to conduct research in France for a period ranging from 4 to 9 months.** Chateaubriand fellows are selected through a merit-based competition, through a collaborative process involving expert evaluators in both countries.

The program is divided into two subprograms:

The Chateaubriand Fellowship in **Science, Technology, Engineering, Mathematics & Biology-Health (STEM)** for doctoral students aims to initiate or reinforce collaborations, partnerships or joint projects between French and American research teams. This fellowship is offered by the Office for Science & Technology (OST) of the Embassy of France in partnership with American universities and French research organizations such as Inserm and Inria. It is a partner of the National Science Foundation's GROW program .

The Chateaubriand Fellowship in **Humanities and Social Sciences (HSS)** targets outstanding Ph.D. students from American universities who seek to engage in research in France, in any discipline of the Humanities and Social Sciences. This fellowship is offered by the Cultural Services of the Embassy of France. HSS Chateaubriand fellows are selected through a merit-based competition, using a binational collaborative process involving expert evaluators from both countries.
